* Assembly districts distributed among senatorial districts in conformity with the requirement: "In counties having more than one senate district, the same number of assembly districts shall be put in each senate district, unless the assembly districts cannot be evenly divided among the senate districts in any county, in which case one more assembly district shall be put in the senate district in such county having the largest, or one less assembly district shall be put in the senate district in such county having the smallest number of inhabitants." N.Y. Const., Art. III, § 5, Para. 4 (1894). The population in districts in the multi-member counties may vary due to the rule precluding the division of towns and blocks.
